ZoomText Magnifier

Enlarges and enhances everything on your computer screen, making all of your applications easy to use and see. ZoomText Magnifier/Screen Reader lets you see and hear your computer screen with NeoSpeech Technology.

knfbReader Mobile

Software runs on a multifunction cell phone which allows the user to read mail, receipts, handouts, currency and many other documents wherever the user happens to be. This is a truly pocket-size solution to reading on the go.

Pebble

A small lightweight design makes it the perfect companion whether you're travelling or at home. Read labels, prescriptions, menus, glucose meters and so much more. Available in 2 sizes: 3.5" and 4.3" LCD Screens.

Amigo

Compact and portable, the Amigo gives you flexibility and freedom. 6.5" tilting screen provides a large field of view. Read a menu, write a check or take it to the grocery store.

Acrobat

The most flexible 3-in-1 camera for near, distance and self viewing. Allows you to read, helps with grooming, see loved ones and objects far away. It's even transportable for work or school

Merlin LCD

A desktop unit that offers the best high resolution image. Sleek design and comfortable viewing positions accommodate any user. Read books, view photos, write checks and more.

Max

For a powerful and affordable digital magnifier that is simple to use — look no further than Max. Use this lightweight, hand-held portable device on any straight or curved surface to magnify images and text. Connects quickly to any TV or monitor and is ideal for use at work, school or even on vacation.

Transformer

The most flexible and portable solution for reading, writing and viewing magnified images at any distance. Compatible with the latest operating systems and seamless integration with various popular magnification programs, Transformer's unique compact design is perfect for school, work or home.

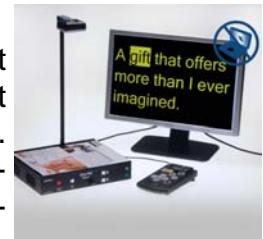

Intel Reader

The unique design combines a high-resolution camera with the power of an Intel® Atom processor that converts printed text to digital text, then reads it aloud.

Eye Pal Solo/LV

Reads aloud almost any printed document without a computer. Features include advanced OCR accuracy, instant scanning, motion activation, voice support and more.

Zoom-Twix

Zoom-Twix takes the easy to use proven technology of Zoom-Ex - the seamless integration of an instant digital scanner and a lightning fast OCR - and adds a zoomable long distance camera to capture what's on a whiteboard, on your desk or in the room—at any zoom, all controlled from your laptop's keyboard.
